5-Year Projection

WESTLAKE CITY SCHOOLS - FISCAL YEAR 2016

November, 2015

5-YEAR FORECAST AND ASSUMPTIONS

Cautionary Note:

The reader should be aware the following notes to the school district's fiscal forecast have been prepared to substantiate the estimates provided in this document. It is critical to understand this forecast represents a 'snapshot' of the district's financial outlook as of the day of the filing of the document. Estimates are made in good faith and based upon the best information available to date. For the most current available information, the reader should contact the district's Treasurer's office directly.

REVENUES

NOTE:

Please note there has been a significant shift in revenue recognition in lines 1.02 and 1.05 of the fiscal forecast due to the impact of the accelerated phase-out of the Tangible Personal Property Reimbursement legislation (HB66) and most recently amended by the biennial budget (HB 153).

General Property & Personal Property Tax

The current projection uses the amount that has been certified by the County Auditor for tax year 2014 via the 'Schedule A' and the current estimate prepared by the County for the fiscal period of July 1 through June 30, 2016. It is important to note that the tax valuation for the 2010 tax year increased less than one-half of 1%, in 2011 was reduced by .36%, slightly increased by one-tenth of 1% in 2012 and reduced by eight-tenths of 1% in 2013. As a result, the forecast is conservative with respect to tax duplicate through fiscal 2020. Estimates are based upon historical collection amounts and will be reconciled upon final settlement. The decrease in FY15 anticipated receipts reflected an audit adjustment to correctly recognize previous year revenue due the debt service fund.

Before taking the certified amounts at their stated value and reducing them by projected homestead and rollback reimbursements, the most recent county auditor's certification was compared to fiscal year 2015 actual receipts because of the traditional variance between the estimated and actual receipts at this point in time. The projection also takes into account a variance for historical levels of tax delinquency and current economic conditions.

The historical data in the forecast reflects the impact of the county reappraisal completed in calendar 2012 with effects felt in subsequent tax years. A slight increase has been estimated for the county update in 2015 due to recent sales ratio data but understanding the fact that property owner's still have the ability to challenge those values this fiscal year. It should be noted that recent tax valuation complaint/appeal cases and the accelerated \$10,000 exemption tax reduction legislation have been taken into consideration. However, any other pending taxable value and exemption cases are not factored into this forecast due to their speculative nature. The reader should understand the outcome of such cases could negatively impact the district's financial situation and will be factored into the forecast if/when more reliable data becomes available. Any additional tax appeals as well as new legislation will be closely monitored to determine what effect, if any, they would have on the fiscal forecast.

Locally, the Crocker Park mixed-use development expansion has been cautiously factored into this forecast from Fiscal 2016 and beyond. In determining tax value, some consideration was given to the speculative nature of this project, construction deadlines imposed in the financing agreement(s) of the project, and the mixed-use nature of the development. Tax values associated with this project are monitored periodically to see if they impact the forecast. However, the overall estimates are based on ongoing discussions with the County Auditor and local municipality regarding possible changes in tax valuation due to new construction, and the potential for future tax incentives. The reader should note the impact of the tax incremental financing (TIF) project between the City of Westlake and American Greetings Corporation has been cautiously factored into the forecast beginning in Fiscal 2015. It is expected the TIF project will generate a minimum of \$455,000 annually in revenue to the school district. This estimate may be revised when better information is received from the City of Westlake and Cuyahoga County regarding the overall status of the project.

Additional Note:

Please be advised this forecast may be adjusted at any time during a fiscal year to account for any major revenue differences. These adjustments are normal as more reliable detail becomes available from the County Auditor later in the respective calendar year. It is important the reader understands taxes are collected on a calendar year basis and in arrears. School districts operate on a July-June fiscal year. In other words, calendar tax revenues to be received will overlap in respective school district fiscal years.

Income Tax

N/A - The district does not have a school district income tax and receives no proceeds from locally assessed income taxes other than a relatively small amount of municipal income tax shared with the School District as required by law and in conjunction with tax abatements granted by the City of Westlake. These amounts are included under line 1.01. At this time, these payments do not have any material effect on the financial position of the school district.

Unrestricted Grants in Aid and Restricted Federal Grant-in-Aid

This amount is comprised of State Basic-Aid, State Stabilization funds if applicable and other categorical state aid revenue. State aid represents 6.8% of all operating revenue. NOTE: State funding for schools is based on several factors, all of which are subject to deliberations and approval of the Ohio General Assembly. The projected revenue from the State beginning in fiscal 2016 and beyond is based upon estimates provided by the Legislative Service Commission and the new funding model enacted by the most recent biennial budget bill. Due to the speculative nature of the funds and the uncertainty of their interdependency with the new funding formula, revenues from Ohio casinos (HB386) have been cautiously factored into the forecast at roughly \$52/pupil in FY16 and beyond.

Property Tax Allocation

Property tax allocation represents projected Homestead and Rollback due the District (approximately \$4.2m) and also includes the tangible personal property (TPP) direct-reimbursement payments to be received from the State (approximately \$1.4m). The reader should note TPP direct-reimbursement payments will cease to exist in FY18 and beyond due to a change in the most recent biennial budget bill and the expected change to current law yet to be enacted by the Governor (SB208). This statutory change has had a material negative impact on the school district due to the fact that historically 10% of operating revenues were derived from personal property taxes. At this time, the best information available from the Ohio Department of Taxation as well as the Ohio Department of Education was used to assess the short and long-term impact of this legislation on the district. The reader should note that any change in future direct reimbursements (FY18-20) would be at this time speculative in nature but will be ultimately determined by the next biennial budget to be effective July 1, 2017.

The annual public utility reimbursement from the State to our district in the amount of \$541,369 ceased back in FY11. This change is a result of the statutory reductions in revenues contained in HB153. This has not been reinstated in any future years of the forecast.

Note: The district has lost over \$15m in State revenue since 2006 due to changes in tax/funding policies initiated by the State.

All Other Revenue

The 'All Other Revenue' caption is comprised of interest, miscellaneous local and other non-operational revenue. Tuition for all day kindergarten and the peer preschool program was increased in FY 15. Interest revenue is estimated in comparison to the prior fiscal year and cash balances available. Items such as the economy and the lowering of interest rates have been taken into account. Reinvestment opportunities may improve in the coming fiscal year if rates rise and additional cash becomes available to invest. No other material miscellaneous revenue is anticipated at this time. It is also assumed that any future catastrophic aid reimbursement will be consistent with prior year enrollment levels, and State bus purchase monies will continue to be unavailable.

Other Financing Sources

Advances In

Forecasted advances-in will be returned to the General fund. Advances being returned provided liquidity for Federal and State and local funded projects. These types of temporary loans are necessary due to the strict disbursement policies of Federal and State agencies.

NOTE: To align with the State forecast software program line 2.06 will be modified to reflect the reservation of fund balance cash-on-hand figure.

EXPENDITURES

Note:

The Board of Education and administration scrutinize all budgetary expenditures for their appropriateness to the educational program and strategically assess how they will impact the long-term financial position of the district. Historical figures reflect budgetary cuts that have been incrementally restored to previous operating levels dating back to FY08. These cuts were mandated by the Board of Education in FY04, FY05 and FY06 respectively due to resource constraints. Additional budgetary cuts were adopted by the Board of Education beginning in FY 12 in recognition of funding reductions imposed on school districts with the passage of HB139/153 and in recognition of the failure of the May 2013 operating levy. The forecast also reflects the district-wide reduction plan first implemented by the Board in December of 2013 in recognition of the failure of the Nov 2013 operating levy.

Personnel Services

The personnel services (wages) category has been projected by taking into account trend and the collective bargaining and staffing data available to date. Any projected increase in wages is a direct result of professional experience changes, possible future wage settlements, employee termination payments (factoring in the change in State pension retirement rules), substitute costs, overtime and projected staffing modifications needed to facilitate the educational program. Historically speaking, the forecast depicts a wage and step freeze for the district administrative team during FY12, FY13 and FY15. Future projections consider normal attrition as well as any additional need for staffing, particularly in the special needs area which is mandated by Federal law. Most recently, the district negotiated a labor agreement with the certificated and support staff which runs thru June 2015 and December 2014 respectively. The former certified agreement included a base freeze for 18 months (through 6-30-14) and reduced the wage schedule in FY14 to reflect the wage schedule in existence on January 1, 2011. The overall reduction in that scale is 2.5%. The current certified labor agreement

thru 6-30-15 included another base wage and step freeze. The support staff agreement provided for a base and step freeze for 24 months (thru 12-31-14). Forecasted amounts in future year(s) include an approximate cost for staff step movement on the existing salary schedule(s) as they gain experience. Student tuition is utilized to help offset the all-day kindergarten and peer preschool program staffing cost. Two FTE's were added in FY 12 to facilitate the International Baccalaureate program as well as an allocation to reflect the absorption of staff that was previously funded with ARRA funds. Staffing in FY 13 included additional FTE's for foreign language needs and the absorption of staff due to the loss of State funding. As part of an overall reduction plan, the forecast reflects a reduction in 14.4 FTE's implemented in the fall of 2014. Additional ancillary staffing has been estimated for future years using information from the Superintendent regarding the projected operational and educational needs of students and commitments contained in the Continuous Improvement Plan. The district will continue to use attrition when considering additional staffing needs.

Employees' Retirement Costs and Insurance Benefits

Employee benefits have a direct relationship to personal services. In the past, fringes have represented 34 to 36% of personal services. Fiscal year 2014 fringe benefits totaled \$11.5m or 36.6% of personal services while fiscal year 2015 benefits were down to \$11.2m or 36.9% of personal services. While increases in the forecast are anticipated for the escalation in district funded health care costs, the forecast also considers the economies gained from participation in the Suburban Health Consortium, increased employee contributions and employee turnover. While management believes that continued participation in the health consortium will help to control district costs, the rapid increase of health care costs continues to be a concern for this area of the forecast due to Federal legislation, the aging demographics of the workforce, current plan design and actual claim experience of district employees. The district is continuing to work with the consortium consultant to ascertain possible areas of cost containment, as well as facilitate ongoing discussions between labor and management on ways to control costs. The forecast does reflect the change in plan design, spousal mandated coverage and assumes the historical and future negotiated premium sharing with the administrative, certificated and non-certificated staff (currently at 15%).

Purchased Services

Purchased services were \$4.4m in fiscal 2013, \$5.9m in fiscal 2014 and \$5.7m in fiscal 2015. The areas within this category of greatest uncertainty will continue to be utilities, outsourced services (resulting from reduction in staffing), district insurance premiums for liability, fleet and property as well as federally mandated costs for serving the district's growing special needs population. Additional monies were allocated in the forecast to account for the impact of the loss of Federal Sequestration funding and further implementation of the International Baccalaureate Program as outlined in the district's Continuous Improvement Plan (CIP) and approved by the Board of Education.

Supplies & Materials

Supply expenses totaled \$1.7m in fiscal 2014 and \$1.4m in fiscal 2015. The estimates for future years will likely vary from actual dollars expended throughout the year as different budgetary needs arise and funds are transferred into another budget category. The continued variability of fuel and instructional software will continue to negatively impact this area of the budget for the long term. In addition, this area of the forecast includes allocations for textbook adoptions in that are consistent with the existing curriculum cycle and district Continuous Improvement Plan (CIP).

Capital Outlay

Capital outlay needs have been identified by the Master Facilities Plan but have been reduced from previous year amounts due to growing needs in other portions of the operating budget. This area includes allocations for the replacement of the district bus fleet and replacing and upgrading district capital needs at both the instruction and operational level. The forecast estimates a significant increase in FY16 to reflect deferred capital activity carried over from FY15 and then resumes to normal levels beginning in FY17.

Debt Service

N/A

Other Financing Uses

Operational Transfers Out

Operational transfers are projected respectively in fiscal 2016-2020. This amount is comprised of the historical transfer into the district athletic fund to cover the lease payment for the use of the swimming pool from the City of Westlake.

Advances Out

The district will need to continue to advance dollars for Federal and State programs until funding is received. In addition, an advance to the Project Link, Rotary and Food Service fund may be necessary for cash flow purposes.

Set-Asides and Reserve of Fund Balance

The Board took action in June 2014 to transfer the proceeds remaining in its employee health benefits self-insurance fund to the General Fund. A reservation of fund balance is now included in the forecast on line 9.02 and 9.03 respectively. These amounts are reserved solely for health benefits and capital improvement needs.

New Levies - Operating and Bond

Historical revenue figures include the passage of a 5.5 mill replacement-operating levy in 2000 for a continuing period of time. This levy equates to approximately 4.2 additional annual operating mills to the district. The levy was assessed on the 2000 tax year, payable in 2001.

The Board of Education placed a 6.9 mill, continuing operating levy on the May 2006 ballot. The community passed this operating levy by a 56-44% majority, and the proceeds were first received in January 2007.

The Board of Education placed a 3.4 mill, bond issue levy on the May 2010 ballot. The bond issue totaled \$84 million and will finance Phase I of the district's master capital plan. The community passed this bond levy by a 56% majority, and the proceeds were first received in August 2010.

The last operational levy (6.8 mills) was approved in 2006 or over 9 years ago by the community. The Board of Education had placed a 5.9 mill levy on the May 2013 ballot and a 5.4 mill levy on the November 2013 ballot for operational purposes. Both levies were unsuccessful.
