PERSONNEL RECORDS

The superintendent develops and implements a comprehensive and efficient system of personnel records. The superintendent is hereby designated as the employee directly responsible for the personnel records system. The following guidelines govern such records.

1. Personnel files contain records and information relative to compensation, payroll deductions, evaluations and such information as may be required by the state or federal ~~government~~ **law** or considered pertinent by the superintendent. Anonymous material or material from an unidentified source is not placed in a staff member's file.
2. A personnel file for each employee is accurately maintained in the District office in accordance with administrative regulations incorporating the requirements set forth under the Ohio Privacy Act for the protection of employees. Employees will be notified whenever personal information concerning them is placed in their file.
3. State law requires that all public records be promptly prepared and made available for inspection to any member of the general public at all reasonable times during regular business hours. Upon request, the person directly responsible for the personnel records is required to make copies available at cost within a reasonable period of time.
4. The public has access to all records in the personnel file with the following exceptions:
  - A. medical records;
  - B. records pertaining to adoption, probation or parole proceedings;
  - C. trial preparation records;
  - D. confidential law enforcement investigatory records;
  - E. Social Security number and
  - F. records of which the release is prohibited by state or federal law.

**Additional exceptions are listed in Ohio Revised Code Section 149.43.**

5. **The District is required to keep reports of investigations of employee misconduct in the employee's personnel file, unless the State Superintendent of Public Instruction or his/her designee determines that the report does not warrant taking action against the employee. If the State Superintendent of Public Instruction or his/her designee determines no action is warranted, the investigation report must be moved from the employee's personnel file to a separate public file.**
6. Each employee has the right, upon written request, to review the contents of his/her own personnel file. If a document is not disclosed to the employee because it is determined by a physician, psychiatrist or psychologist to be likely to have an adverse effect upon the employee, the document will be released to the designated medical authority. Requests are made to the superintendent and scheduled for a time convenient for the parties involved.
7. Employees may make written objections to any information contained in the file. Any written objection must be signed by the staff member and becomes part of the employee's personnel file after the appeal procedure outlined in the Ohio Revised Code. The appeal procedure permits any employee who disputes the accuracy, relevance, timeliness or completeness of information maintained in his/her file to compel the District to investigate the current status of the information.

In addition, the District restores the employee to the same or a similar position after the termination of the leave in accordance with Board policy.

FAMILY AND MEDICAL LEAVE

An employee who has worked for the District for at least 12 months is eligible for 12 work-weeks of FMLA leave during a 12-month period provided the employee worked at least 1,250 hours in the 12 months preceding the beginning of the leave. **An employee may be eligible for 26 work weeks of FMLA leave during a 12-month period to care for a covered service member with a serious injury or illness.**

Types of Leave – An eligible employee may take FMLA leave for **the following purposes:**

1. ~~the birth and first year care of a child;~~ **birth and to care for a newborn child;**
2. ~~the adoption or foster placement of a child;~~ **to care for, or spend additional time with, an adopted child or foster child;**
3. ~~the serious illness of an employee's spouse, parent or child or to care for a spouse, child, parent or, in limited circumstances, next of kin with a serious health condition (if person cared for is a "covered service member," then leave allowed is 26 weeks);~~
4. ~~the employee's own serious health condition that keeps the employee from performing the essential functions of his/her job to recover from a serious health condition or~~
5. **to respond to a "qualifying exigency" that arises because a spouse, child or parent is on active duty or has been called to active duty as a member of the National Guard or Reserves in support of a contingency operation.**

An employee may elect, or the Board may require, an employee to use accrued paid vacation, personal or sick leave for purposes of a family leave. An employer cannot compel an employee to use accrued medical/sick leave in any situation for which the leave could not normally be used.

Spouses Employed by the District

If a husband and wife eligible for leave are employed by the District, their combined amount of leave for birth, adoption, foster care placement and parental illness may be limited to 12 weeks. An employee may not take FMLA leave to care for a parent-in-law.

**If a husband and wife eligible for leave are employed by the District, their combined amount of leave to care for a covered service member is limited to 26 weeks.**

Intermittent and Reduced Leave

Intermittent leave is leave taken in separate blocks of time due to a single illness or injury.

Reduced leave is a leave schedule that reduces employee's usual number of hours per workweek or hours per workday.

Intermittent or reduced leave is available only for the employee's own serious health condition or to care for a seriously ill spouse, child or parent. Such leave may not be used for the birth or adoption/ placement of a child.

The employee who wishes to use intermittent or reduced leave must have the prior approval of the Board/designee. Although the Board/designee and employee may agree to an intermittent or reduced leave plan, the employee who uses family leave is not automatically entitled to use such leave on an intermittent or reduced leave schedule.

The Board may provide such leave for medical purposes, but the superintendent may transfer the employee to a position which is equivalent, but more suitable for intermittent periods of leave. The employee must furnish the Board with the expected dates of the planned medical treatment and the duration of the treatment. The superintendent must authorize such leave in writing.

Benefits

The Board maintains the employee's health coverage under the group health insurance plan during the period of FMLA leave. The employee should make arrangements with the CFO/Treasurer to pay the employee's share of health insurance (e.g., family coverage) prior to the beginning of the FMLA leave.

The employee will not lose any other employment benefit accrued prior to the date on which leave began but is not entitled to accrue seniority or employment benefits during the leave period. Employment benefits could include group life insurance, sick leave, annual leave, educational benefits and pensions.

#### Notice

When the FMLA leave is foreseeable, the employee must notify the superintendent of his/her request for leave at least 30 days prior to the date when the leave is to begin. If the leave is not foreseeable, the employee must give notice as early as is practical. When the employee requests medical leave, the employee must make reasonable attempts to schedule treatment so as not to disrupt the District's operations. The Board may deny the leave if the employee does not meet the notice requirements.

#### Certification

The Board may require the employee to provide certification from a health care provider containing specific information required under the law if he/she requests a medical leave. If there is a question concerning the validity of such certification, a second and, if necessary, a third opinion can be required, both at the expense of the District. Upon the employee's return to work, the Board requires that the employee present a fitness statement from the employee's health care provider certifying that the employee is able to return to work.

#### Restoration

When the employee returns from the leave, the Board restores the employee to the same or an equivalent position with equivalent benefits, pay, terms and conditions of employment in accordance with Board policy.

Under certain circumstances, the Board may deny restoration to a key employee. The Board complies with the notice requirements of the FMLA in denying restoration. A key employee is one who is among the highest paid 10% of the employees and whose absence would cause the District to experience a substantial and grievous economic injury.

#### Instructional Employees

Special leave rules apply to instructional employees. Instructional employees are those whose principal function is to teach and instruct students in a small group or individual setting. This term includes teachers, athletic coaches, driving instructors and special education assistants such as signers for the hearing impaired. It does not include teacher assistants or aides who do not have as their principal job actual teaching or instructing, nor does it include auxiliary personnel such as counselors, psychologists or curriculum specialists. It also does not include cafeteria workers, maintenance workers or bus drivers.

Limitations apply to instructional employees who take intermittent or reduced leave. If the leave requested is:

1. to care for a family member or for the employee's own serious health condition;
2. foreseeable based on planned medical treatment and
3. the employee would be on leave for more than 20% of the total number of working days over the period the leave would extend.

The Board then may require the employee to choose either to:

1. take leave for a period or periods of a particular duration not greater than the planned treatment or
2. transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits, and which better accommodates recurring periods of leave than does the employee's regular position.

Limitations also apply to instructional employees who take leave near the end of a semester. When an instructional employee begins leave more than five weeks before the end of a semester the Board may require the employee to continue taking leave until the end of the semester if:

1. the leave will last at least three weeks and
2. the employee would return to work during the three-week period before the end of the semester.

When an instructional employee begins leave for a purpose other than the employee's own serious health condition during the five-week period before the end of the semester, the Board may require the employee to continue taking leave until the end of the semester if:

1. the leave will last more than two weeks and
2. the employee would return to work during the two-week period before the end of the semester.

When an instructional employee begins leave for a purpose other than the employee's own serious health condition during the three-week period before the end of a semester and the leave lasts more than five working days, the Board may require the employee to continue taking leave until the end of the semester.

#### Failure to Return

The Board is entitled to recover health care premiums paid during the leave if the employee fails to return from leave. Recovery cannot occur if the employee fails to return because of the continuation, recurrence or onset of a serious health condition or due to circumstances beyond the control of the employee .

PROFESSIONAL STAFF SUPPLEMENTAL CONTRACTS

Certain positions assigned to professional staff members may require extra responsibility or extra time beyond that required of all professional staff members. When the Board and administration determine the need, qualified staff selected for such positions are provided supplemental contracts and additional compensation.

The Board approves the positions and the compensation for these assignments. Supplemental contracts for such assignments are awarded by the Board upon the recommendation of the Superintendent.

Supplemental contracts are limited contracts given for terms not to exceed five years. Supplemental contracts expire automatically at the end of their terms, with or without Board action.

The Board directs the superintendent/designee to identify those supplemental contract positions that supervise, direct or coach student activity programs which involves athletic, routine/regular physical activity or health and safety considerations. Individuals accepting these contract positions must complete the requirements established by the Ohio Department of Education, state law and the Ohio Administrative Code.

TITLE I PROGRAMS

The Title I program is based on an annual assessment of educational needs. This assessment includes identification of educationally deprived children in the public and private schools in this District. Title I services are provided to all eligible, educationally deprived students.

The Board believes parent involvement is a vital part of the Title I program. **The Superintendent/designee jointly develops with, and distributes to, parents of children participating in Title I programs within the District a written parental involvement policy and guidelines. The written parental involvement policy includes a School-Parent Compact jointly developed by the school and the parents. The requirements of the policy, compact and guidelines are consistent with Federal and State law.**

Parent involvement ~~includes shall include~~, but is not be limited to, contribution to the design and implementation of programs under this Title, participation by parents in school activities and programs, and training and materials which build parents' capacity to improve their children's learning in both the home and the school. To build a partnership between home and school, the District:

1. informs the parents **of the program**, the reasons for their children's participation ~~in the program~~ and the specific instructional objectives;
2. trains parents to work with their children to attain instructional objectives;
3. trains teachers and other staff involved in programs under this Title to work effectively with the parents of participating students;
4. develops partnerships by consulting with parents regularly;
5. provides opportunities for parents to be involved in the design, operation and evaluation of the program and
6. provides opportunities for the full participation of parents who lack literacy skills or whose native language is not English.

Title I funds are used only to augment, not to replace, state and local funds. The Board uses ~~such~~ **these** funds to provide **equivalent or comparable** educational services in **all** schools receiving Title I assistance. ~~and funds are used to provide comparable services in all school receiving Title I assistance.~~

**The District is required to bring students up to a proficient level in reading and mathematics. Any school that receives Title I funds, and fails to made adequate yearly progress as defined by the State Board of Education two years in a row, is required to offer school choice for students to transfer from the low performing building to a building that is making the required progress. Among students exercising choice, priority is given to the lowest-achieving students from low income families.**

**If a school does not meet the adequate yearly progress three years in a row, it is required to offer supplemental (tutorial) services. The administration is directed to develop a plan to comply with school choice and supplemental services.**

~~The District requires all students with disabilities and limited English proficiency to be tested. Alternative assessments are required to be developed for these groups. These two groups must make yearly gains as defined by the adequate yearly progress indicator adopted by the State Board of Education and be at a proficient level in 12 years. The Board directs the administration to develop a plan to comply with school choice and supplemental service sanctions.~~

PARENTAL INVOLVEMENT IN EDUCATION

The Board believes that parent/**guardian** involvement is an important part of the educational program. Current research indicates that a home-school partnership and greater involvement on the part of parents/**guardians** in the education of their children generally result in higher achievement scores, improved student behavior and reduced absenteeism. All parents/**guardians** are encouraged to take an active role in the education of their children **and/or foster children and/or any children for whom they have custodial rights and responsibilities for educational purposes.**

The Board directs the administration to develop **along with parents/guardians and foster caregivers** the necessary regulations to ensure that this policy is followed and that parent/**guardian** involvement is encouraged. The regulations:

1. encourage strong home-school partnerships;
2. provide for consistent and effective communication between ~~the~~ parents/**guardians or foster caregivers** and school officials;
3. offer parents/**guardians or foster caregivers** ways to assist and encourage their children **or foster children** to do their best; and
4. offer ways parents/**guardians or foster caregivers** can support classroom learning activities. ~~and~~
5. ~~provide opportunities for parents in the parental involvement program.~~

**In addition, building administrators/designees of schools receiving Title I funds will jointly develop with and distribute to parents/guardians of children participating in Title I programs a written parental/guardian involvement policy and guidelines. The requirements of the policy and guidelines are consistent with Federal and State law.**

SCHOOL VOLUNTEERS

The Board believes one of the greatest resources available may be found in the citizens of the community who have special knowledge and talents to contribute to the District. The use of citizens as volunteers within the school program enhances the educational process not only for students, but for the community as well. Volunteers may provide additional support in the classroom, promote community-school cooperation in facilitating the learning process and provide resource persons who have expertise in various areas.

Recruitment and selection of volunteers is done at the local building level. Interested individuals should contact the building principal or his/her designee. The interests and abilities of the volunteers are considered when making assignments.

All volunteers shall be registered with the District office and at the appropriate building. Standard procedures for record keeping include hours contributed by various volunteers, types of services or donations made and an application kept on file at the local school for any volunteer who works directly with students, especially in tutorial relationships.

~~Current and prospective volunteers who have or will have unsupervised access to children on a regular basis may, at any time, be subject to a criminal record check (BCH).~~

ACADEMIC ACCELERATION

In accordance with the belief that all children are entitled to an education commensurate with their particular needs, students who can exceed the grade-level indicators and benchmarks set forth in the standards must be afforded the opportunity and be encouraged to do so. The Westlake Board of Education believes that such students often require access to advanced curriculum in order to realize their potential contribution to themselves and society.

All children learn and experience success given time and opportunity, but the degree to which academic content standards are met and the time it takes to reach the standards will vary from student to student. The Westlake Board of Education believes that all students, including advanced learners, should be challenged and supported to reach their full potential. For advanced learners, this can best be achieved by affording them access to curriculum, learning environments, and instructional interventions.

This policy, in compliance with O.R.C. 3324.10, describes the process that shall be used for evaluating students for possible accelerated placement and identifying students who should be granted early admission to kindergarten, accelerated in one or more individual subject areas, promoted to a higher grade level than their same-age peers, and granted early graduation from high school.

The District uses acceleration strategies in four academic areas:

1. Whole-grade acceleration: The practice of assigning a student on a full-time basis to a higher grade level than is typical given the student's age, for the purpose of providing access to appropriately challenging learning opportunities.
2. Individual subject acceleration: The practice of assigning a student to a higher grade level than is typical given the student's age, for the purpose of providing access to appropriately challenging learning opportunities in one or more subject areas.
3. Early admission to kindergarten: The practice of admitting a student to kindergarten who has not yet reached the typical age at which students are admitted to kindergarten, for the purpose of providing access to appropriately challenging learning opportunities (see Policy JEBA incorporated by reference herein).
4. Early high school graduation: The practice of facilitating completion of the high school program in fewer than four years, for the purpose of providing earlier than typical access to post-secondary educational opportunities (see Policy IKFA and IKFA-R incorporated by reference herein).

**Academic Acceleration**

Any student residing in the District may be referred by a staff member or a parent/guardian to the principal of his/her school for evaluation for possible accelerated placement. Students may refer themselves or a peer through a staff member who has knowledge of the referred child's abilities. Copies of referral forms for evaluation for whole-grade or individual subject acceleration will be available at each school building.

Children referred for accelerated placement will be evaluated in a prompt manner. The building principal will schedule the evaluations. Normally, changes in a student's schedule will occur only at the start of a grading period/semester.

Before a student is evaluated for accelerated placement, the principal (or his/her designee) shall obtain written permission from the student's parent/guardian.

Evaluations related to referrals that occur during the school year will ordinarily be completed within sixty (60) calendar days. Evaluation related to referrals that occur at the end of the school year or during the summer will occur either before the end of the school year, if possible, or within thirty (30) calendar days of the start of the next school year.

Upon referral, the Director of Pupil Services (or his/her designee) shall convene an acceleration evaluation committee to determine the appropriate learning environment for the referred student. This committee shall normally include the following:

- A. a parent/guardian, or a representative designated by that parent/guardian
- B. a gifted education coordinator or gifted intervention specialist or other staff member knowledgeable in area of gifted education
- C. a principal or assistant principal from the child's current school
- D. a school psychologist and/or guidance counselor
- E. a current teacher of the referred student
- F. a teacher at the grade level or course to which the referred student may be accelerated
- G. the student, if age appropriate

The acceleration evaluation committee shall be responsible for conducting a fair and thorough evaluation of the student.

Students considered for whole-grade acceleration will be evaluated using an acceleration assessment process approved by the Ohio Department of Education. The acceleration evaluation committee will consider the student's own thoughts on possible accelerated placement in its deliberations.

Students considered for individual subject acceleration will be evaluated using a variety of data sources, including measures of achievement based on State academic content standards (in subjects for which the State Board of Education has approved content standards) and consideration of the student's maturity and desire for accelerated placement. The acceleration evaluation team will consider the student's own thoughts on possible accelerated placement in its deliberations.

The acceleration evaluation committee shall issue a written decision on the outcome of the evaluation process to the principal and the student's parent/guardian. This notification shall include instructions for appealing the decision.

Appeals must be made in writing to the Superintendent within fourteen (14) calendar days of the parent/guardian receiving the committee's decision. The Superintendent or his/her designee shall review the appeal and notify the parent/guardian of his/her decision within fourteen (14) calendar days of receiving the appeal. The Superintendent or his/her designee's decision shall be final.

If the student is recommended for whole-grade or individual subject acceleration, the acceleration evaluation committee will develop a written acceleration plan. The parent/guardian shall be provided with a copy of the plan. The plan shall specify:

- A. placement of the student in an accelerated setting;
- B. strategies to support a successful transition to the accelerated setting;
- C. requirements and procedures for earning high school credit prior to entering high school (if applicable)

The acceleration evaluation committee will specify an appropriate transition period for accelerated students.

At any time during the transition period, a parent/guardian of the student may request in writing that the student be withdrawn from accelerated placement. In such cases the principal shall remove the student from the accelerated placement without repercussions.

At any time during the transition period, a parent/guardian may request in writing an alternative accelerated placement. In such cases, the principal shall direct the evaluation committee to consider other accelerative options and to issue a decision within sixty (60) calendar days of receiving the request. If the student will be placed in a different accelerated setting from that initially recommended, the student's acceleration plan shall be revised accordingly, and a new transition period shall be specified.

At the end of the transition period, the accelerated placement shall become permanent. The student's record shall be modified accordingly, and the acceleration implementation plan shall become part of the student's permanent record to facilitate continuous advancement through the curriculum.

**The Board directs the administration to develop and submit to the Ohio Department of Education for review and approval similar guidelines as the ODE model acceleration policy guidelines for referring and evaluating students who may qualify for acceleration services.**

EARLY ENTRANCE TO KINDERGARTEN

State law establishes minimum age requirements for admission to kindergarten **and first grade** and sets forth requirements for a standardized testing program to evaluate those students deemed ready by parents for early admission. **The district shall admit a child who fails to meet minimum age requirement for admission to kindergarten or first grade, if the child meets necessary standards deemed appropriate as outlined in the standardized testing program.**

Children who will be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested are evaluated upon the request of the child's parent or legal guardian.

Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested are also evaluated for possible early admittance if referred by an educator within the District or a preschool educator, a pediatrician or a psychologist who knows the child. The building principal may also request evaluation at his/her discretion.

When a request for early entrance to kindergarten **or first grade** is received for a student, the building principal/designee interviews the parent(s) and child and arranges for testing. ~~Testing criteria are established as follows:~~

**Children referred for early entrance evaluation shall be evaluated based upon the following:**

- 1) Superior performance on individually administered intellectual measures,**
- 2) Social maturity appropriate for participation in classroom activities at the grade level.**
- 3) Appropriately developed readiness and personality skills as determined by the evaluation committee upon review of evaluation results and information provided by parents, pre-school teachers, and others in the course of the evaluation.**

**An evaluation committee consisting of at least the building principal, examiner, parent/legal guardian, and a teacher of the grade to which the student is to be admitted will meet following the evaluation to determine if a probationary enrollment period will be granted. Early entrance will continue upon the principal and teacher recommendation that the child continue in the kindergarten or first grade program after the initial 30 to 60 day period from the first date of attendance.**

**The District will not admit any child who has not successfully completed a kindergarten program to the first grade. Upon parent request, the evaluation committee may exempt a student from this requirement if the committee determines that the student will be six years of age by the thirtieth day of September of the year of admittance and finds that the student demonstrates the necessary intellectual, social, and emotional skills necessary for first grade (in accordance with the early entrance evaluation criteria described above).**

~~The school psychologist recommends early admission based on the school psychologist's evaluation which finds the child to be of superior mental ability and mature enough to participate in classroom activities.~~

~~The director of pupil services approves the recommendation of the school psychologist.~~

~~The principal and teacher recommend that the child continue in the kindergarten program after the initial 30 to 60 day period.~~

#### Admission of Students Expelled in Other Districts

The superintendent is authorized to temporarily deny admittance to the Westlake City Schools any student who is otherwise entitled to be admitted to the District, if the student has been expelled from schools of another district and if the period of expulsion has not expired. The student and parent will have an opportunity for a hearing before the superintendent or his/her designee to determine the admittance or non-admittance of the student. Any appeal of the superintendent's decision shall be to a court of appropriate jurisdiction.

STUDENT RECORDS

In order to provide students with appropriate instruction and educational services, it is necessary for the District to maintain extensive educational and personal information. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parent(s) or legal guardian(s) or the student in accordance with law, yet be guarded as confidential information.

The superintendent is responsible for the proper administration of student records in keeping with ~~Ohio~~ **State** Law and Federal requirements and the procedures for the collection of necessary information about individual students throughout the District.

Upon request, all records and files that are included in the student's cumulative folder will be available to parent(s), guardians or the student (if he/she is over 18 years of age). This request must be in writing and ~~will be~~ **is** granted within seven calendar days. No records are to be removed from the school and a principal or designee, teacher or other qualified school personnel must be present to explain any of the tests or other material.

All rights and protections given to parents under law and this policy transfer to the student when he/she reaches age 18 or enrolls in a postsecondary school. The student then becomes an "eligible student."

**The District uses reasonable methods to identify and authenticate the identity of parents, students, school officials and any other parties to whom the agency or institution discloses personally identifiable information from education records.**

The District will provide notice to parent(s)/guardian(s) and eligible students annually, in accordance with the procedures set forth under administrative regulations, of the ~~following~~ rights held by parents and eligible students under law and this policy. **It is the intent of the District to limit the disclosure of information contained in the student's education records except:**

1. by prior written consent;
2. as directory information and
3. under other limited circumstances, as enumerated under administrative regulations.

**The following rights exist:**

1. The right to inspect and review the student's education records;
2. The right, in accordance with administrative regulations, to seek to correct parts of the student's education record, including the right to a hearing if the ~~District~~ **school authority** decides not to alter the record according to the parent(s)' or eligible student's request;
3. The right of any person to file a complaint with the U.S. Department of Education if the District violates relevant Federal law, specifically the Federal Educational Rights and Privacy Act (FERPA) and
4. the right to acquire information concerning the procedure which the parent(s) or eligible student should follow to obtain copies of this policy, the locations from which these copies may be obtained, as well as any fees to be charged for such copies. \*(See administrative regulations.)

The District proposes to designate the following personally identifiable information contained in a student's education record as "directory information." ~~and it will disclose that information without prior written consent, except where the request is for a profit making plan or activity.~~

1. student's name
2. student's address
3. telephone number(s)
4. student's date and place of birth
5. participation in officially recognized activities and sports
6. student's achievement awards or honors
7. student's weight and height, if a member of an athletic team
8. major field of study
9. dates of attendance ("from and to" dates of enrollment)
10. date of graduation

The above information is disclosed without prior written consent, except when the request is for a profit-making plan or activity. Student records that consist of "personally identifiable information" generally are exempt from disclosure. Student directory information, however, is released unless the parents have affirmatively withdrawn their consent to release in writing.

Administrative regulations will set forth a procedure for annual notification to parent(s)/guardian(s) and eligible students of the District's definition of directory information. Parent(s)/guardian(s) or eligible students ~~will~~ then have two weeks to advise the District, in accordance with such regulations, of any or all items which they refuse to permit ~~the District to designate~~ as directory information about that student.

To carry out their responsibilities, school officials will have access to student education records for legitimate education purposes. The District ~~will~~ uses the criteria set forth under administrative regulations to determine who are "school officials" and what constitute "legitimate educational interests."

Other than requests as described above, the District will release information from or permit access to, a students' education records only with **the prior written consent of a parent or eligible student's prior written consent**, except that the school Superintendent or a person designated in writing by the Superintendent may permit disclosure in certain limited circumstances outlined under administrative regulations (e.g., transfers to another school district or to comply with judicial order or subpoena, **or** where warranted, in a health or safety emergency, etc.).

The District ~~will~~ maintains, in accordance with administrative regulations, an accurate record of all requests to disclose information from, or to permit access to, a student's education records and of information disclosed and access permitted.

## PROCEDURE TO INSPECT EDUCATION RECORDS

Parents or eligible students may inspect and review education records to which they are entitled to have access upon request. In some circumstances, it may be mutually more convenient for the record custodian to provide copies of records. (See the schedule of fees for copies.)

Since a student's records may be maintained in several locations, the school principal may offer to collect copies of records or the records themselves from locations other than a student's school, so that they may be inspected at one site. If parents and eligible students wish to inspect records where they are maintained, school principals accommodate their wishes.

Parents or eligible students should submit to the student's school principal a written request which identifies as precisely as possible the record or records which he/she wishes to inspect.

The principal (or other custodian) contacts the parent(s) of the student or the eligible student to discuss how access is best arranged (copies, at the exact location or records brought to a single site).

The principal (or other custodian) makes the needed arrangements as promptly as possible and notifies the parent(s) or eligible student of the time and place where the records may be inspected. This procedure must be completed within 45 days or earlier after the receipt of the request for access.

If for any valid reason such as working hours, distance between record location sites or health, a parent(s) or eligible student cannot personally inspect and review a student's education records, the District arranges for the parent(s) or eligible student to obtain copies of the records. (See below information regarding fees for copies of records.)

When records contain information about students other than a parent(s)' child or the eligible student, the parent(s) or eligible student may not inspect and review the records of the other students.

## FEES FOR COPIES OF RECORDS

The District does not deny parents or eligible students any rights to copies of records because of the following published fees. When the fee represents an unusual hardship, it may be waived, in part or entirely, by the records custodian. The District reserves the right to make a charge for copies, such as transcripts, which it forwards to potential employers or to colleges and universities for employment or admissions purposes. The District may deny copies of records (except for those required by law) if the student has an unpaid financial obligation to the District.

Federal law requires the District to provide copies of records for the following reasons:

1. when the refusal to provide copies effectively denies access to a parent(s) or eligible student;
2. at the request of the parent(s) or eligible student when the District has provided the records to third parties by the prior consent of the parent(s) or eligible student or
3. at the request of the parent(s) or eligible student when the District has forwarded the records to another district in which the student seeks or intends to enroll.

The fee for copies provided under Federal law may not include the costs for search and retrieval. A fee shall be established annually by the CFO/Treasurer and shall be actual cost less hardship factor.

The fee for all other copies such as copies of records forwarded to third parties with prior consent or those provided to parents as a convenience ~~is A fee shall be~~ established annually by the CFO/Treasurer and shall be actual cost less hardship factor. (actual search, retrieval copying cost and postage, if any).

### DIRECTORY INFORMATION

The District proposes to designate the following personally identifiable information contained in a student's education record as "directory information"; it discloses that information without prior written consent, except that directory information is not released for a profit-making plan or activity. Such information includes:

1. student's name
2. student's address
3. telephone number(s)
4. student's date and place of birth
5. participation in officially recognized activities and sports
6. student's achievement awards or honors
7. student's weight and height, if a member of an athletic team
8. major field of study
9. dates of attendance ("from and to" dates of enrollment)
10. date of graduation

Within the first three weeks of each school year, the District publishes the above list, or a revised list, of the items of directory information which it proposes to designate as directory information. For students enrolling after the notice is published, the list is given to the student's parent(s) or to the eligible student at the time and place of enrollment.

After the parents or eligible students have been notified, they have two weeks in which to advise the District in writing (a letter to the school Superintendent's office) of any or all of the items which they refuse to permit the District to designate as directory information about that student.

At the end of the two-week period, each student's records are appropriately marked by the record custodians to indicate the items which the District designates as directory information about that student. This designation remains in effect until it is modified by the written direction of the student's parent(s) or the eligible student.

### USE OF STUDENT EDUCATION RECORDS

To carry out their responsibilities, school officials have access to student education records for legitimate educational purposes. The District uses the following criteria to determine who are school officials. An official is **a person**:

1. ~~a person~~ duly elected to the Board;
2. ~~a person~~ certificated by the state and appointed by the Board to an administrative or supervisory position;
3. ~~a person~~ certificated by the state and under contract to the Board as an instructor;
4. ~~a person~~ employed by the Board as a temporary substitute for administrative, supervisory or teaching personnel for the period of his/her performance as a substitute or

5. ~~a person~~ employed by, or under contract to, the Board to perform a special task such as a secretary, a CFO/Treasurer, Board attorney or auditor for the period of his/her performance as an employee or contractor; **or**
6. **a contractor, consultant, volunteer or other party to whom an agency or institution has outsourced institutional services or functions may be considered a school official provided that the outside party:**
  - A. performs an institutional service or function for which the district would otherwise use employees;**
  - B. is under the direct control of the District with respect to the use and maintenance of education records, and**
  - C. abides by the legal requirements governing the use and re-disclosure of personally identifiable information from education records.**

School officials who meet the criteria listed above have access to a student's records if they have a legitimate educational interest in those records. A "legitimate educational interest" is the person's need to know in order to **perform**:

1. ~~perform~~ an administrative task required in the school employee's position description approved by the Board;
2. ~~perform~~ a supervisory or instructional task directly related to the student's education or
3. ~~perform~~ a service or benefit for the student or the student's family such as health care, counseling, student job placement or student financial aid.

**NOTE: The District must use reasonable methods to ensure that school officials obtain access to only those educational records in which they have legitimate educational interests. A District that does not use physical or technological access controls to records must ensure that its administrative policy for controlling access to education records is effective, and that it remains in compliance with the legitimate educational interest requirement.**

The District releases information from or permits access to a student's education records only with a parent's or an eligible student's prior written consent, except that the school Superintendent or a person designated in writing by the Superintendent may permit disclosure under the following conditions:

1. when students seek or intend to enroll in another school district or a postsecondary school. **The District makes reasonable attempts to notify the parent or eligible student or unless the District's annual notification includes notice that the District forwards education records to other education entities that request records in connection with a student's transfer or enrollment. Upon request, the District provides copies of the records and an opportunity for a hearing** (upon the condition that the student's parents be notified of the transfer, receive a copy of the record and have an opportunity for a hearing to challenge the content of the record);
2. when certain Federal and State officials need information in order to audit or enforce legal conditions related to federally supported education programs in the District;
3. when parties who provide, or may provide, financial aid ~~to students~~ **for which a student has applied or received** need the information to:
  - A. establish the student's eligibility for the aid;
  - B. determine the amount of financial aid;
  - C. establish the conditions for the receipt of the financial aid or
  - D. enforce the agreement between the provider and the receiver of financial aid;

4. if ~~an Ohio~~ a **State** law adopted before November 19, 1974, required certain specific items of information to be disclosed in personally identifiable form from student records to state or local officials;
5. when the District has entered into a written agreement or contract for an organization to conduct studies on the District's behalf to develop tests, administer student aid or improve instruction;
6. when accrediting organizations need those records to carry out their accrediting functions;
7. when parents of eligible students claim the student as a dependent;
8. when it is necessary to comply with a judicial order or lawfully issued subpoena; the District makes a reasonable effort to notify the student's parent(s) or the eligible student before making a disclosure under this provision; ~~and~~
9. if the disclosure is an item of directory information and the student's parent(s) or the eligible student has not refused to allow the District to designate that item as directory information for that student;
10. **the disclosure is in connection with a health and safety emergency; and**
11. **the disclosure concerns sex offenders and other individuals required to register under section 170101 of the Violent Crime Control and Law Enforcement Act of 1994, 42 USC 14071, and the information was provided to the educational agency or institution under 42 USC 14071 and applicable Federal guidelines.**

~~The District permits any of its officials to make the needed disclosure from student education records in a health or safety emergency if:~~

- ~~1. the official deems it is warranted by the seriousness of the threat to the health or safety of the student or other persons;~~
- ~~2. the information is necessary and needed because of the emergency;~~
- ~~3. the persons to whom the information is to be disclosed are qualified and in positions to deal with the emergency or~~
- ~~4. time is an important and limiting factor in dealing with the emergency.~~

**The District discloses personally identifiable information from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.**

**When deciding whether to release personally identifiable information in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.**

**The District records the following information when it discloses personally identifiable information from education records under the health or safety emergency exception:**

1. **the articulable and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure and**
2. **the parties to whom the District disclosed the information.**

The district is required to permit the Ohio Department of Education to have access to personally identifiable information about a student if the Ohio Department of Education needs the information to:

1. notify the district or school attended in the district of threats or descriptions of harm included in the student's response to an achievement test question;
2. verify the accuracy of the student's achievement test score, or
3. determine whether the student satisfies the alternative conditions for a high school diploma.

District officials may release information from a student's education records if the student's parent(s) or the eligible student gives his/her prior written consent for the disclosure. The written consent must include at least:

1. a specification of the records to be released;
2. the reasons for the disclosure;
3. the person or the organization or the class of persons or organizations to whom the disclosure is to be made;
4. the parent(s) or student's signature and
5. the date of the consent and, if appropriate, a date when the consent is to be terminated.

**The District uses reasonable methods to identify and authenticate the identity of parents, students, school officials and any other parties to whom the agency or institution discloses personally identifiable information from education records.** The student's parent(s) or the eligible student may obtain a copy of any records disclosed under this provision.

The District does not release information contained in a student's education records, except directory information, to any third parties, except its own officials, unless those parties agree that the information is not re-disclosed, without the parent(s)' or eligible student's prior written consent.

#### RECORDS OF REQUESTS FOR ACCESS AND DISCLOSURES MADE FROM EDUCATION RECORDS

The District maintains an accurate record of all requests for it to disclose information from, or to permit access to, a student's education records and of information it discloses and access it permits, with some exceptions listed below. This record is kept with, but is not a part of, each student's cumulative school records. It is available only to the record custodian, the eligible student, the parent(s) of the student or to federal, state or local officials for the purpose of auditing or enforcing federally supported educational programs.

The record includes:

1. the name of the person who or agency which made the request;
2. the interest which the person or agency has in the information;
3. the date on which the person or agency made the request and
4. whether the request was granted and, if it was, the date access was permitted or the disclosure was made.
5. **in the event of a health and safety emergency, the articulable and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure; and the parties to whom the agency or institution disclosed the information.**

The District maintains this record as long as it maintains the student's education record.

The records do not include requests for access or information relative to access which has been granted to parent(s) of the student or to an eligible student, requests for access or access granted to officials of the District who have a legitimate educational interest in the student; requests for, or disclosures of, information contained in the student's education records if the request is accompanied by the prior written consent of a parent(s) or eligible student or if the disclosure is authorized by such prior consent or for requests for, or disclosures of, directory information designated for that student.

### PROCEDURES TO SEEK TO CORRECT EDUCATION RECORDS

Parents of students or eligible students have a right to seek to change any part of the student's records which they believe is inaccurate, misleading or in violation of student rights.

For the purpose of outlining the procedure to seek to correct education records, the term "incorrect" is used to describe a record that is inaccurate, misleading or in violation of student rights. The term "correct" is used to describe a record that is accurate, not misleading and not in violation of student rights. Also, in this section, the term "requester" is used to describe the parent(s) of a student or the eligible student who is asking the District to correct a record.

To establish an orderly process to review and correct the education records for a requester, the District may make a decision to comply with the request for change at several levels in the procedure.

First-level decision. When a parent of a student or an eligible student finds an item in the student's education records which he/she believes is inaccurate, misleading or in violation of student rights, he/she should immediately ask the record custodian to correct it. If the records are incorrect because of an obvious error and it is a simple matter to make the record change at this level, the records custodian makes the correction. If the records are changed at this level, the method and result must satisfy the requester.

If the custodian cannot change the records to the requester's satisfaction, or the records do not appear to be obviously incorrect, he/she:

1. provides the requester a copy of the questioned records at no cost;
2. asks the requester to initiate a written request for the change and
3. follows the procedure for a second-level decision.

Second-level decision. The written requests to correct a student's education records through the procedure at this level should specify the correction which the requester wishes the District to make. It should at least identify the item the requester believes is incorrect and state whether he/she believes the item:

1. is inaccurate and why;
2. is misleading and why and/or
3. violates student rights and why.

The request is dated and signed by the requester.

Within two weeks after the records custodian receives a written request, he/she:

1. studies the request;
2. discusses it with other school officials (the person who made the record or those who may have a professional concern about the District's response to the request);
3. makes a decision to comply or decline to comply with the request and
4. completes the appropriate steps to notify the requester or moves the request to the next level for a decision.

If, as a result of this review and discussion, the records custodian decides the records should be corrected, he/she effects the change and notifies the requester in writing that he/she has made the change. Each such notice includes an invitation for the requester to inspect and review the student's education records to make certain that the records are in order and the correction is satisfactory.

If the custodian decides the records are correct, he/she makes a written summary of any discussions with other officials and of his/her findings in the matter. He/She transmits this summary and a copy of the written request to the Superintendent.

Third-level decision. The Superintendent reviews the material provided by the records custodian and, if necessary, discusses the matter with other officials such as the school attorney or the Board (in executive session). He/She then makes a decision concerning the request and completes the steps at this decision level. Ordinarily, this level of the procedure should be completed within two weeks. If it takes longer, the Superintendent notifies the requester in writing of the reasons for the delay and indicates a date on which the decision will be made.

If the Superintendent decides the records are incorrect and should be changed, he/she advises the record custodian to make the changes. The record custodian advises the requester of the change as he/she would if the change had been made at the second level.

If the Superintendent decides the records are correct, he/she prepares a letter to the requester which includes:

1. the District's decision that the records are correct and the basis for the decision;
2. a notice to the requester that he/she has a right to ask for a hearing to present evidence that the records are incorrect and that the District grants such a hearing;
3. advice that the requester may be represented or assisted in the hearing by other parties, including an attorney at the requester's expense and
4. instructions for the requester to contact the Superintendent or his/her designee to discuss acceptable hearing officers, convenient times and a satisfactory site for the hearing. (The District is not bound by the requester's positions on these items but may, as far as feasible, arrange the hearing as the requester wishes.)

Fourth-level decision. After the requester has submitted (orally or in writing) his/her wishes concerning the hearing officer, the time and place for the hearing, the Superintendent, within a week, notifies the requester when and where the District will hold the hearing and who it has designated as the hearing officer.

At the hearing, the hearing officer provides the requester a full and reasonable opportunity to present material evidence and testimony to demonstrate that the questioned part of the student's education records are incorrect as shown in the requester's written request for a change in the records (second level).

Within one week after the hearing, the hearing officer submits to the Superintendent a written summary of the evidence submitted at the hearing. Together with the summary, the hearing officer submits his/her recommendation, based solely on the evidence presented at the hearing, that the records should be changed or remain unchanged.

The Superintendent prepares the District's decision within two weeks of the hearing. That decision is based on the summary of the evidence presented at the hearing and the hearing officer's recommendation. The District's decision is based solely on the evidence presented at the hearing. The Superintendent may overrule the hearing officer if he/she believes the hearing officer's recommendation is not consistent with the evidence presented. As a result of the District's decision, the Superintendent takes one of the following actions.

1. If the decision is that the District changes the records, the Superintendent instructs the records custodian to correct the records. The records custodian corrects the records and notifies the requester as in the context of the second-level decision.
2. If the decision is that the District does not change the records, the Superintendent prepares a written notice to the requester which includes:
  - A. the District's decision that the records are correct and will not be changed;
  - B. a copy of a summary of the evidence presented at the hearing and a written statement of the reasons for the District's decision and
  - C. advice to the requester that he/she may place in the student's education records an explanatory statement which states the reasons why he/she disagrees with the District's decision and/or the reasons he/she believes the records are incorrect.

Final administrative step in the procedure. When the District receives an explanatory statement from a requester after a hearing, it maintains that statement as part of the student's education records as long as it maintains the questioned part of the records. The statement is attached to the questioned part of the records and whenever the questioned part of the records is disclosed, the explanatory statement is also disclosed.

PUBLIC COMPLAINTS

Constructive criticism of the District is welcomed by the Board. Although no member of the community is denied the right to bring his/her complaints to the Board, he/she is referred to the proper administrative channels for solution before investigation or action by the Board. Exceptions may be made when the complaints concern Board actions or Board operations.

The Board believes that complaints and grievances are best handled and resolved as close to their origin as possible. The staff should be given the opportunity to consider the issues and attempt to resolve the problems prior to involvement by the Board. The proper channeling of complaints involving instruction, discipline or learning materials is ~~as follows~~ employee, principal, **appropriate administrator**, Superintendent, **and then the** Board of Education.

If a complaint, that was presented to the Board and referred through the proper channels, is resolved before it comes back to the Board, a report of the disposition of the matter is made to the Board and then placed in the official files.

The Board expects the staff to receive complaints courteously and to make a proper reply to the complainant.

Matters referred to the Superintendent and/or Board must be in writing and are expected to be specific in terms of the action desired.

## PUBLIC COMPLAINTS ABOUT THE CURRICULUM OR INSTRUCTIONAL MATERIALS

The Board recognizes the need and right of students to free access to many different types of books and materials. It also recognizes the right of the professional staff to select books and other materials supportive of the Board's educational philosophy and goals.

Criticism of a book or other materials used in the District may be expected from time to time. In such instances, the following guidelines shall apply.

1. If a parent requests that his/her own child not read a given book, the teacher and/or school administrator should resolve the issue, perhaps by arranging for use of alternative material meeting essentially the same instructional purpose.
2. The Board does not permit any individual or group to exercise censorship over instructional materials and library collections, but it recognizes that, at times, a re-evaluation of certain material may be desirable. Should an individual or group ask to have any book or other material withdrawn from school use, the following steps are taken.
  - A. The person who objects to the book or other material is asked to sign a complaint on a standard form documenting his/her criticism.
  - B. Following receipt of the formal complaint, the superintendent provides for a re-evaluation of the material in question. He/She arranges for the appointment of a review committee from among the faculty and community to consider the complaint.
  - C. The superintendent reviews the complaint and the committee's re-evaluation and renders a decision in the matter. Should the decision be unsatisfactory to the complainant, it may be appealed to the Board.

The Board assumes final responsibility for all books and instructional materials that it makes available to students, and it holds its professional staff accountable for their proper selections. The Board also recognizes rights of individual parents with respect to controversial materials used by their own children and provides for the re-evaluation of materials in library collections upon formal request.

PUBLIC COMPLAINTS ABOUT DISTRICT PERSONNEL

Complaints about personnel are investigated fully and fairly. Before any such complaint is investigated, it must be submitted in writing and signed. Anonymous complaints are disregarded.

Whenever a complaint is made directly to the Board as a whole or to a Board member as an individual, it is referred to the school administration for study and possible solution.

The superintendent develops, for approval by the Board, procedures that ensure prompt and fair attention to complaints against school personnel. The procedure requires that an employee who is the object of a complaint be informed promptly and be afforded the opportunity to present the facts as he/she sees them.

If it appears necessary, the administration, the person who made the complaint or the employee involved may request an **audience with executive session** of the Board **in executive session**. ~~for a formal hearing~~. Statutory restrictions on executive sessions are observed. Any Board action on the matter is taken in public session.
