INTERSCHOLASTIC ATHLETICS

The Board believes that interscholastic and intramural athletics are a desirable part of the total school program. The athletic program has great potential to contribute to the sound growth and all around development of students.

The Board believes that standards and ideals established and practiced will influence greatly the youth, the school and community; therefore, only the best traditions of good citizenship and conduct will be fostered.

Participation by students in athletic competition is a privilege subject to Board policies and regulations. While the Board takes pride in winning, it emphasizes and requires good sportsmanship and positive mental attitude as a prerequisite to participation.

The superintendent and administrative staff schedule frequent conferences with all physical education instructors, coaches and athletic directors to develop a constructive approach to physical education and athletics throughout the District and to maintain a program that is an educational activity.

Interscholastic sports programs are subject to approval by the Board. The building principal is responsible for the administration of the interscholastic athletic program within his/her school. In discharging this responsibility, the principal consults with the athletic directors, coaches and physical education instructors on various aspects of the interscholastic athletic program. It is the responsibility of the principal and his/her staff to ensure the proper management of all athletic and physical education programs and the safety of students and the public.

The Board may require that students pay reasonable fees to participate in an extracurricular activity.

Coaches are required to complete an approved course in sports-related first aid training and a course in cardiopulmonary resuscitation in order to qualify to serve as a coach.

Trained and competent leadership and coaching, adequate equipment and facilities are essential prerequisites for any sponsored activity.

The welfare of the students takes precedence over any other interests.

The athletic program of the District shall follow rules and regulations as established and maintained by the Ohio High School Athletic Association.

Scheduling, arrangements and organization shall be under the direct supervision of the athletic coordinator.

In the conduct of interscholastic athletic programs, the rules, regulations and limitations outlined by the Ohio High School Athletic Association (OHSAA) must be followed. It is the responsibility of the District's voting delegate to OHSAA to advise the management team of all pending changes in OHSAA's regulations.

Eligibility requirements for participating in athletic programs must conform to regulations of the OHSAA. They include the requirements that a student have the written permission of his/her parent(s) and shall have been determined as physically fit for the chosen sport by a licensed physician. **In the event a religious practice prohibits a physical examination, the superintendent may consider options acceptable by the OHSAA after being provided documented evidence the individual's religious practice prohibits this type of examination. If such a circumstance is determined acceptable by both the OHSAA and the superintendent, it shall be required that the parents/guardians sign both an Authorization form (page 3 HIPAA form) and Consent to Participate form (which both the parent(s) and student must sign). It shall also be required the parents/guardians sign a declaration that they are refusing the PPE and are holding the school district harmless for any liability incurred as a result of that decision. Refusal to sign the forms means the student shall not participate.**

All students participating in interscholastic athletics must purchase insurance available through the school, or the parent(s) must sign a waiver ensuring that such coverage is not necessary.

As character building is one of the major objectives of interscholastic athletics, the athlete assumes responsibility for regulating his/her personal life in such ways as make him/her a worthy representative of his/her school.

Any student may be suspended from an athletic team practice and competition for a period of time, designated by the principal, for infraction of school rules and regulations or for any other unacceptable conduct in or out of school.

Beginning in the fall of the 2001 school year, students are ineligible for athletics for one year when they transfer from one district to another without changing residency. Transfers within the school district are not affected. There are exceptions to the ineligibility provisions contained in the Ohio School Athletic Bylaws.

Foreign exchange students not enrolled in a state-approved educational or exchange program must be legally adopted by a resident of that school district in order to be eligible for athletics.

PHYSICAL EXAMINATIONS OF STUDENTS

The District requires health records of students under the following circumstances.

1. Kindergarten and first grade students entering school for the first time must have a completed health record before being admitted to school.
2. Health records are requested for all students transferring into the District. If the previous school does not forward a record or if it is incomplete, it is the parents' responsibility to comply with health requirements for students.

~~3.~~

Students must have physical examinations prior to their participation in interscholastic athletic programs. **In the event a religious practice prohibits a physical examination, the superintendent may consider options acceptable by the OHSAA after being provided documented evidence the individual's religious practice prohibits this type of examination. If such a circumstance is determined acceptable by both the OHSAA and the superintendent, it shall be required that the parents/guardians sign both an Authorization form (page 3 HIPAA form) and Consent to Participate form (which both the parent(s) and student must sign). It shall also be required the parents/guardians sign a declaration that they are refusing the Pre-Participation Examination (PPE) and are holding the school district harmless for any liability incurred as a result of that decision. Refusal to sign the forms means the student shall not participate.**

Annually the District will notify parents of physical exams or screenings conducted on students except for vision, hearing or scoliosis.
