WHS students participate in National Engineers Week

As part of National Engineers Week (Feb. 19 – 25), students of the WHS Engineering & Technology Education Department participated in the Cleveland State University College of Engineering Day.

Students started off the day with an engineering design contest. Teams of three or four students brainstormed, designed and constructed a Design Squad project called the "Paper Table." They had to

build a structure out of newspapers and a limited amount of masking tape, it had to be at least 6 inches high and hold as many books as possible. The all girls team (named "Girl Quad") of Claire Turgeon, Julia Button, Megan Rochford and Ashley Kay won the contest with a structure that held a dozen books.

With deepest sympathies ...

Dover special education assistant Cal-lie Smith recently lost her mother, Cris Winchester, 64, of Avon Lake. Winchester died after a short illness.

Please keep the Smith, Winchester and Dover families in your thoughts during this difficult time.
