October 4<sup>th</sup>, 2019

## Newsletter

### Good Afternoon Parents!

Fall is upon us!

While this newsletter will serve as a preview of what to expect in the week(s) ahead, we realize we got a late start with creating it, so we wanted to introduce more bits to what the program here at CLUB D.I.S. and W is all about. Since we strive for more autonomy with our students here, we don't have any mandatory activities (unless parents insist students get homework done by a specific time.) Every other activity here at Club is only by willing participation. BUT, left to their own devices and students might find themselves glued to their own devices, right? So, we here at Club strive, every day, to come up with activities the students would want to do instead of focusing on their phones. We have an outline to how each week is going to go, and it reads as follows:

**Mondays: Meeting & Store.** Taking note kids want to be "treated less like kids" we started having meetings. This is where we review the week ahead, any new rules, and take suggestions for new activities. Afterwards, the "store" opens up where students can use their points to buy privileges or various treats.

**Tuesdays: Taste Test/ Cooking.** While students can cook anytime a teacher can supervise, Taste Testing allows students to try new things, and Cooking teaches a new skill around the kitchen.

**Wednesdays: Organized Activity.** An organized gym game that is typically 5<sup>th</sup> grade vs. Everyone (Ambitious youngsters...)

**Thursdays: Challenge.** Hide N Seek through the school? Scavenger Hunts? Perhaps a Murder Mystery or Escape Room later this year? Teachers set up a challenge for the kids to do.

**Fridays: Movie.** Using the projector in the computer lab, we set up an immersive movie experience to end the week.

Have a fantastic weekend,  
Your CLUB D.I.S. & W
